**Subject:** RE: Public statement on RM 10.9

Wanda and David,

Attached is the statement on RM 10.9 project that we would like to release to the public later this

week. We said in the late June public statement that work would begin early this week and would like to update community groups about the minor delay.

Please let us know if you have any comments/edits to the statement. We'll hold on releasing anything until we get your final approval.

Thank you.

**Subject:** RE: Public statement on RM 10.9

Good Morning Tony:

We've been having lots of system issues also so it's always good to follow up. Please set up the call for 3:00 pm today. Just share the conference line info once it's setup.

Thanks!

Hi Wanda,

My email to you bounced back so I wanted to respond again. I'm free tomorrow from 9-12:30 and 3-5 p.m. to discuss communications. I can set up a conference line if you need me to. Jonathan Jaffe will be joining us.

**Subject:** RE: Public statement on RM 10.9

Hey Tony:

Hope all is well and that things are moving along with the project.

The Wednesday before the holiday, I got a call from a Mike Serbo on behalf of the Lyndhurst Dive Team (?) calling about technical assistance for purchasing some scuba gear. I explained that the government's technical assistance resource is to obtain an expert to help the community understand our actions, the process, etc. and not in the form of any kind of donation(s). After consulting this with David, he told me to let you know since maybe CPG can help out or find a donor of some kind. Can you reach out to Mike, 201-538-3227 and see if there is anything your organization can do for his group. I'd appreciate it because I told him I would look into his request. Sorry a whole week went by but I've been swamped and have so many papers and notes around, I can't make heads or tails of them sometimes.

Stay cool and we should plan to touch base soon. Will reach out to David and Stephanie and give you a call once they update me.

**To:** [tbianchini@lowerpassaiccp.org](mailto:tbianchini@lowerpassaiccp.org)

**Subject:** RE: Public statement on RM 10.9

It should read like this:

### **Start of Work on River Mile (RM) 10.9 Project Delayed**

The Lower Passaic River Study Area Cooperating Parties Group (CPG), under the supervision of the U.S. Environmental Protection Agency (EPA), is planning to remove approximately 20,000 cubic yards of dredged material from RM 10.9 in Lyndhurst.

Mobilization and implementation of this project will involve the opening of several bridges along the length of the River from RM 10.9 to the Newark Bay.

We have learned that the Bridge Street Bridge running between Newark and Harrison at RM 5.5 is currently not operational. In accordance with the design of the removal action, this bridge, with the smallest river clearance of the bridges crossing the Lower Passaic down river from the RM 10.9 project, must be returned to service before this project can begin. The bridge's two electric motors are undergoing repair and are expected to be returned for re-installation around July 8. The bridge operator estimates that the Bridge Street bridge should be back in service the week of July 22, and we are making the necessary preparations so that dredging can start shortly after the bridge is once again

operational We are also developing a contingency plan in the unlikely case that operation of the bridge is delayed significantly beyond the week of July 22. We will keep you updated on the project schedule as more information becomes available.

**To:** Ayala, Wanda  
**Cc:** Kluesner, Dave  
**Subject:** Public statement on RM 10.9

Wanda,

Attached is the draft public statement on RM 10.9. Please have Stephanie review today. After your approval, we plan to send this statement to the Lyndhurst, Bergen Co., state legislators, all of the boat clubs, crew teams, mariners and other Passaic River stakeholders like the CAG. Please let me know when this statement is okay to be released. We will certainly follow EPA's direction on timing and statement content.

Thank you.

**Subject:** RE: Thank you letter & Monitoring fact sheet

Sorry Tony I was out on sick leave for a couple of days. All looks good except that the contact on the fact sheet should be Stephanie and me like in the letter. George Zachos serves kind of like an ombudsman for Superfund that is why we put his name and number on the sign since he comes in kind of like a third party that people can contact if they general concerns or have complaints about the Superfund program (specific issues that were not fully addressed). Stephanie's extension is 3914. Once you finalize the fact sheet, resend it so that I can share with Stephanie and George.

Thanks!

**To:** Ayala, Wanda  
**Subject:** RE: Thank you letter & Monitoring fact sheet

Hi Wanda,

Would like to try to email out thank you letter today to attendees.

Also did you have any further edits to sign or flyer. Would like to start the production of both tomorrow.

Attached are all three. I've revised the contact information in the flyer to match the sign.

Thanks again.

**To:** 'Ayala, Wanda'  
**Subject:** RE: Thank you letter & Monitoring fact sheet

Wanda,

Thanks for the sign in sheet. I didn't realize we were not capturing addresses for people, so I will email the thank you letter to attendees when it's finalized. Attached is the updated thank you letter. Can you please insert Stephanie's phone number. (I don't have it.)

Please let me know if you have any further edits to the flyer, thank you letter or sign.

Tony Bianchini

**Sent:** Monday, June 10, 2013 3:51 PM

**To:** [tbianchini@lowerpassaiccp.org](mailto:tbianchini@lowerpassaiccp.org)

**Subject:** RE: Thank you letter & Monitoring fact sheet

Sorry Tony for not getting back to you sooner. So here is how we would like to proceed, in the thank you letters, you should refer people to Stephanie Vaughn, Remedial Project Manager or me for further information on the project (the same applies to the fact sheet).

On the sign(s) you should list the following:

**George H. Zachos**

**U.S. EPA**

**Regional Public Liaison**

**(732) 321-6621**

**[zachos.george@epa.gov](mailto:zachos.george@epa.gov)**

or toll free at (888) 283-7626

Once you make the changes, let me look at them one more time before finalizing the products and once it's all cleared and ready to go, I will share with Stephanie and George to ensure that we're all on the same foot.

Will forward you the sign-in sheet separately. Note that not every signed up because I have only two pages and there were more people at the meeting than reflected on the sheets.

Hi Wanda,

Hope you had a nice weekend.

Just wanted to touch base with you on the monitoring fact sheet and thank you letter. Would like to try to send out both early this week.

Also attached are drafts of the project site sign and project flyer that we would place in the Riverside County Park (one facing park and one facing river). After content is approved, we'll design a simple flyer. Please let me know this week if you have edits to either document.

Thanks very much.

**Subject:** RE: Thank you letter & Monitoring fact sheet

Nice meeting you too Tony. David and I are meeting later today and I'll get back to you with his comments.

In the letter the last paragraph should read:

For further information about the CPG's work at the River Mile 10.9, please contact Ray Germann (his contact information) or EPA Community Involvement Coordinator Wanda Ayala (my contact information). It makes more sense this way since this letter is being sent out under CPG letter head and signature.

Will also forward you the sign-in sheet once it's scanned. Both David and I will be out on furlough tomorrow, so if you don't hear back from us by the end of the day today, I'll touch base with you first thing Monday.

**Subject:** Thank you letter & Monitoring fact sheet

David and Wanda,

Thanks for a great event last night.

As I mentioned last night, attached for your review is the thank you letter that we wanted to send out to meeting attendees as well as a brief fact sheet about the monitoring equipment/buoys that were placed in the River last week. I talked to Peter Willcox from Nereid Boat Club and Ben Delisle from PRRA last night and told them that I would be sending them this fact sheet later this week. I also plan to provide it to the other river users that we've been communicating with. Please let me know if you have changes/additions to either document.

Hope to talk to you soon about the logistics for next month's press conference and the August 1 CAG tour. Happy to help out in any way I can.
